Beyond Compliance Workshops

From CSRD reporting to
impact innovation

A two-workshop series designed to
connect the reporting process with
innovation and positive impact

Beyond Compliance:

From CSRD reporting to impact innovation

This two-workshop series will unlock opportunities to use the reporting process to catalyse strategy, and build valuable data assets that will not only streamline reporting but also accelerate action.

Designed to:

- ✓ Empower and re-energise teams
- ✓ Map opportunities to unlock the full power of trustworthy data at scale
- ✓ Identify a pathway to better control ongoing costs and get more out of the tools you use

Who are the workshops for?

- ✓ Core functions: Sustainability, Finance, Data
- Industry-specific functions: Procurement,
- ✓ Facility management, R&D, Product, Marketing

Workshop overview

Two core workshops (supported by an information pack), which are tailored to your needs and point on your CSRD & data journey:

WORKSHOP 1

Unlock the opportunity for impact

- Understand how and why regulation has impact
- Reframe teams' perspectives on CSRD to demonstrate its capacity as a catalyst for positive change
- Identify pain points and opportunities in reporting
- Collaborate with peers to identify and agree common goals and actions across the business

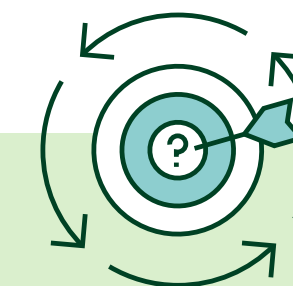

WORKSHOP 2

Map your sustainability data opportunities

- Understand how scaled data can streamline reporting, but also drive insights, effective action and innovation
- Gain confidence with data frameworks and literacy
- Assess where you are on the data maturity journey
- Identify data issues and prioritise investment areas
- Start shaping a sustainability data action plan

ADDITIONAL MATERIALS

Sustainability & Data pack:

To guide further reading and action during and after the workshop
